Mr. R. J. Smith
Director for Intelligence
Central Intelligence Agency
Washington, D. C. 20505

Dear Mr. Smith:

I have had considerable difficulty in trying to develop a sound program for controlling US exports to France because of the limited amount of pertinent information available. Specifically, I would very much like to know what US equipment is being used in French missile and submarine programs. I would greatly appreciate any information you could provide me.

I would also appreciate knowing whether or not requirements are needed for better coverage. If you would like to discuss this matter, I would be happy to do so.

Sincerely,

Arthur W. Barber
Deputy Assistant Secretary
